Report of the Scheme Managers

History and Statutory Background

The Armed Forces Pension Scheme (AFPS 75)

The Armed Forces Pension Scheme is an unfunded, defined benefit, salary-related, contracted-out occupational pension scheme open to most members of the Armed Forces, administered by the Armed Forces Personnel Administration Agency (AFPAA) and financed on an annual basis by the Consolidated Fund.

The Scheme is designed to meet the special requirements of Service life. Youth and fitness are important to the Services, and the Scheme provides immediate pension benefits to many of those who leave without completing a full career. The full career pension can be earned relatively early, at age 55, and invaliding and death benefits are available in the event of illness, injury or death, at different rates depending upon whether or not these are caused by service.

The Scheme rules are set out in "Prerogative Instruments" that derive their authority from Her Majesty The Queen and are not subject to approval, annulment or amendment by Parliament. For the Royal Navy and the Royal Marines the Prerogative Instrument is an Order in Council under the Naval and Marine Pay and Pensions Act 1865. For the Army, it is the Army Pension Warrant 1977 and, for the Royal Air Force, the Queen's Regulations.

The Armed Forces Pension and Compensation Schemes

The Armed Forces (Pension & Compensation) Act 2004 is the primary legislation covering the AFPS 05, Early Departure Payment (EDP) Scheme and Armed Forces Compensation Scheme (AFCS). These schemes were introduced on 6 April 2005.

The Armed Forces Pension Scheme (AFPS 05)

From 6 April 2005, the Armed Forces Pension Scheme (known as AFPS 05) was introduced for all new members of the Armed Forces. The AFPS 05 is also an unfunded, defined benefit, salary-related, contracted out, occupational pension scheme. Pensions are paid immediately if an individual serves to age 55: those who have at least two years service who leave before age 55 will have their pensions preserved until age 65. Pensions may be payable to the spouse, civil partner, partner or to eligible children. Death-in-service lump sums are payable subject to nomination. There are no attributable ill-health benefits under the AFPS 05 as these will be considered under the War Pensions Scheme (WPS) or the Armed Forces Compensation Scheme (AFCS).

The scheme includes an Early Departure Payment (EDP) for those who leave before age 55 providing they have at least 18 years service and are at least 40 years of age. The EDP Scheme pays a tax-free lump sum and income of between 50% and 75% of preserved pension between the date of the individual's departure from the Armed Forces and age 55. The income rises to 75% of preserved pension at age 55 and is index linked. At age 65 the EDP stops and the preserved pension and preserved pension lump sum are paid.

The Armed Forces Compensation Scheme (AFCS)

The AFCS was introduced on 6 April 2005, replacing two separate compensation arrangements under the AFPS 75 and the WPS. The AFCS covers injury, illness and death that are caused by service on or after 6 April 2005. The AFCS is a tariff-based compensation scheme, which has been designed to be simple to understand and to produce quick, consistent and equitable decisions, using an evidence-based approach.

Principal Purpose and Administrative Aim

In administering the Armed Forces Pension Scheme and Armed Forces Compensation Scheme on behalf of the Ministry of Defence (MoD), the Armed Forces Personnel Administration Agency (AFPAA) and the Veterans Agency (VA) aim to ensure that all pension and compensation payments due to entitled pensioners and members of the Armed Forces are made in a timely and accurate fashion. From 1 April 2007, the two agencies are merging to form the Service Personnel and Veterans Agency (SPVA).

The Executive Boards

The AFPS and AFCS are managed and operated by AFPAA and the VA respectively, both Agencies being within the MoD. The costs of administering the Scheme are borne by the MoD and are reflected in the Departmental Resource Accounts (DRAc).

The Chief Executive of AFPAA has been designated by the Departmental Accounting Officer to be the Scheme Administrator and Senior Finance Officer for the AFPS. The Chief Executive of the VA is the Scheme Administrator and Senior Finance Officer for the AFCS.

The AFPAA and VA Executive Boards meet regularly to determine strategy, set objectives and review performance towards strategic goals. The Executive Boards consists of:

AFPAA Executive Board

Rear Admiral T A Spires	Chief Executive
Mr P D Northen	Deputy Chief Executive/Agency Secretary
Air Commodore D Tonks BSc RAF	Director Change
Brigadier R Bacon	Director Strategy, Requirements and Programmes
Air Commodore I Harvey BSc RAF (until 12/01/06)	Director Operations
Commodore A Ross (from 18/12/06)	Director Operations
Dr P Collins (until 14/08/06)	Deputy Director Joint Personnel Administration
Mrs A Sansome (from 14/08/06)	Deputy Director Joint Personnel Administration
Mr A L Maynard (until 28/04/06)	Deputy Director Finance and Corporate Governance
Mr D Gregg (from 17/05/06)	Deputy Director Finance and Corporate Governance
Mr K J Ludlam	Non Executive Director

VA Executive Board

Mr A Burnham (until 30/06/06)	Chief Executive
Mr T Taylor (from 01/07/06)	Chief Executive
Mr P Kitchen	Medical Director
Miss W Stewart	Director Corporate Services
Mr G Mulrooney	Director Operations Governance
Mr A Jablonowski	Non Executive Director
Professor H Drummond	Non Executive Director

Other Schemes

The Scheme Statements summarise the transactions of not only the AFPS and AFCS but also the three smaller pension schemes: The Gurkha Pension Scheme (GPS), the Non-Regular Permanent Staff Pension Scheme (NRPS), and the Reserve Forces Pension Scheme (RFPS), also managed and operated by AFPAA, whose members amount to 3.68% of the AFPS total membership.

Auditors

The accounts of the AFPS and AFCS are audited by the Comptroller and Auditor General under the Government Resources and Accounts Act 2000.

Audit

As Accounting Officer of the AFPS, I am responsible for the disclosure of the relevant audit information. I can confirm that:

- There is no relevant audit information of which the auditors are unaware;
- I have taken all necessary steps to ensure that I am aware of relevant audit information; and
- I have taken all necessary steps to establish that the auditors are aware of the information.

Changes to the Scheme

During the year the following changes were made to the Scheme:

Pensions were increased by 2.7% (2005 3.1%) with effect from 10 April 2006 (11 April 2005).

Membership Statistics

There are three groups of members, defined as follows:

- Active Members: personnel who are in service, which is reckonable for pension purposes.
- Deferred Pensioners: former actives who are not currently in pensionable service but who are entitled to AFPS benefits at some future date.
- Pensioners in Payment: former actives who are currently receiving AFPS benefits, plus other AFPS beneficiaries such as widow(er)s, survivors and other dependants of former actives.

Active members (figures rounded to nearest 5)

Active members at the start of the year	193,310
Other adjustment	4,660
Add: New entrants in year	15,765
Transfers in	65
Less: Leavers in year	22,645
Transfers out	745
Active members at the end of the year	**190,410**

Deferred members

Deferred members at the start of the year	296,633
Other adjustment	26,568
Add: Members leaving who have deferred pension rights	15,639
Less: Members taking up deferred pension rights	8,851
Deferred members at the end of the year	**329,989**

Pensioners in payment

Pensioners at the start of the year	350,421
Other adjustment	26,039
Add: New pensions starting in the year	15,268
Less: Pensions that have ceased in the year	8,707
Pensioners at the end of the year	**383,021**

Bill Jeffrey

Accounting Officer for the Armed Forces Pension Scheme
and Armed Forces Compensation Scheme

9 July 2007

Actuarial Statement for the Armed Forces Pension Scheme for Accounts for the Year Ended 31 March 2007

A. Liabilities

The capitalised value as at 31 March 2007 of expected future benefit payments under the Armed Forces Pension Scheme, for benefits accrued in respect of employment (or former employment) prior to 31 March 2007, has been assessed using the methodology and assumptions set out in Sections C and D below. The results are as follows:

Value of Liabilities	**£ million**
Pensions in Payment	54,668
Deferred Pensions	12,985
Active Members (Past Service)	32,896
Total	**100,549**

B. Accruing Costs

The Armed Forces Pension Scheme is non-contributory for members. The cost of benefits accruing for each year of service is met by the employer. The cost of benefits accruing in the year 2006/2007 (excluding the cost of the AFCS) has been assessed as follows:

% of pensionable pay	
Officers	42.9%
Other ranks	25.4%

I understand that the split of total pay between pensionable and non-pensionable items is not readily available and for practical purposes the employer's charge is calculated by applying rates consistent with total pay to the year's payroll. The cost of accruing benefits applicable to total pay are 40.4% pa for Officers and 24.7% for Other Ranks. The actual rates being charged to the employer (on a pensionable pay basis) are 35.3% pa for Officers and 19.4% pa for Other Ranks (excluding the cost of the AFCS).

C. Methodology

The value of the liabilities has been obtained by projecting the accrued benefits, with allowance for expected future pay increases in respect of active members.

The standard contribution rate for accruing costs has been determined using the entry age method, with assumed ages at entry of 24 years for officers, and 19 years for other ranks.

D. Assumptions

The liabilities of the AFPS at 31 March 2007 have been calculated in accordance with the Resource Accounting requirements, and in particular with the requirement that the discount rate net of price increases should be 1.8% p.a. (pension benefits under the scheme are increased in line with prices). The main financial assumptions made are:

- The gross rate of return in excess of earnings increases is 0.3% pa.
- The gross rate of return is assumed to be 4.6% pa although this assumption has a minor impact on the calculation of the liability.
- In nominal terms, these assumptions are then equivalent to an allowance for increase in salaries of 4.3% pa, an allowance for price inflation of 2.75% pa and an allowance for the rate of increase for pensions in payment and deferred pensions of 2.75% pa.

The demographic assumptions used to calculate the liabilities at 31 March 2007 are those recently adopted to determine the employer's charge to the scheme and have been derived with reference to the analysis of the experience of the scheme that was undertaken as part of the full actuarial valuation of the AFPS at 31 March 2005. These assumptions are different to those used to calculate the liabilities as at 31 March 2006 in the 2005/2006 accounts.

The cost of benefits accruing over the year 2006/07 has been calculated using the same assumptions as were used to calculate the liability of the AFPS at 31 March 2006 accounts.

E. Notes

(1) This Statement is based on the formal valuation carried out as at 31 March 2005 for the AFPS, with an approximate updating to reflect known changes in scheme membership as at 31 December 2006 and for deferred membership as at 31 March 2007.

(2) The liabilities in Section A include the benefits accrued by personnel who are in the Gurkha Pension Scheme. Full data was not available for this group of personnel and therefore only a very approximate allowance has been made.

(3) The data for this assessment was gathered from AFPAA, MoD. The data has been compared with similar data provided for the 31 March 2006 assessment, in order to check it is reasonable.

(4) The pension benefits taken into account in this assessment are those normally provided from the rules of the pension scheme, including normal retirement benefits, ill-health retirement benefits, and benefits applicable following the death of the member. Benefits payable from the Armed Forces Compensation Scheme have not been included. The assessments do not include the cost of redundancy benefits in respect of current employees. However, pension payments already being made in respect of such cases are included in this statement of liabilities in Section A above.

Stephen Humphrey
Government Actuary's Department 12 June 2007
London

Statement of Accounting Officer's Responsibilities

Under the Government Resources and Accounts Act 2000, the Ministry of Defence with the consent of HM Treasury has directed the Armed Forces Pension Scheme to prepare for each financial year a statement of accounts in the form and on the basis set out in the Accounts Direction.

With the exception of certain transactions (which are accounted for on a cash basis) the financial statements are prepared on an accruals basis and must give a true and fair view of the financial transactions of the scheme during the year and the disposition, at the end of the financial year, of the net liabilities. Note 2 "Accounting Policies" to the financial statements describes those transactions which are accounted for on a cash basis, the use of which has no material effect on the net outgoings for the year nor on the net liabilities at the year end.

In preparing the financial statements, the Accounting Officer is required to comply with the requirements of the Government Financial Reporting Manual and in particular to:

- Observe the accounts direction issued by HM Treasury including the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis;
- Make judgements and estimates on a reasonable basis;
- State whether applicable accounting standards, as set out in the Government Financial Reporting Manual have been followed, and disclose and explain any material departures in the financial statements; and
- Prepare the financial statements on a going concern basis.

HM Treasury has appointed the Permanent Head of the Department as Accounting Officer for the Armed Forces Pension Scheme. The responsibilities of an Accounting Officer, including responsibility for the propriety and regularity of the public finances for which the Accounting Officer is answerable, for keeping proper records and for safeguarding the assets of the pension scheme are set out in the Accounting Officers' Memorandum issued by HM Treasury and published in Annex 3 of the Government Financial Reporting Manual.

Statement on the System of Internal Control – Armed Forces Pension Scheme (AFPS) and Armed Forces Compensation Scheme (AFCS) 2006/2007

Scope of responsibilities

1. As the Accounting Officer for the Armed Forces Pension Schemes (AFPS) and the Armed Forces Compensation Scheme (AFCS), I have personal responsibility for maintaining a sound system of internal control that supports the achievement of the AFPS and AFCS policies, aims and objectives, whilst safeguarding the public funds and departmental assets for which I am personally responsible, in accordance with the responsibilities assigned to me in Government Accounting.

The purpose of the system of internal control

2. The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the departmental policies, aims and objectives to evaluate the likelihood of risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The system of internal control has been in place for the AFPS and the AFCS for the year ended 31 March 2007 and up to the date of approval of the annual report and accounts, and accords with current Treasury guidance.

Capacity to handle risk

3. Administration of the AFPS is undertaken by two Agencies within the Ministry of Defence. Administration of the AFPS is an integral part of the military pay and pension services provided by the Armed Forces Personnel Administration Agency (AFPAA). Administration of the AFCS is the responsibility of the Veterans Agency (VA). Risk management and internal control are embedded in the day-to-day operations of the AFPS and AFCS business and management systems. Each Agency has a management board structure and a risk management process embracing as necessary MoD's commercial partners EDS (Defence) Ltd and Paymaster (1836) Ltd.

4. Business and accounting operations of the AFPS and the AFCS are periodically reviewed by a number of audit bodies. These bodies include Internal Audit and assurance teams within the MoD and the Agencies, and the National Audit Office. Feedback is given on the risk compliance testing carried out by the internal audit throughout the financial year.

5. Externally, the AFPS and the AFCS are represented on the HM Treasury led Public Sector Pension Scheme Accountants Forum which helps to promote consistency and shares best practice across all public sector pension schemes. Representatives from all public sector pension schemes attend along with members of HM Treasury, the Government Actuary's Department and the National Audit Office.

6. Risk owners and risk managers are identified as part of the risk management process within the Agencies. Members of the Agencies' management teams are trained in appropriate risk management skills.

The risk and control framework

7. The AFPAA contract with EDS sets out the structure for the ownership and management of risk. A Joint Risk Policy Statement outlines the approach to management of risk within the AFPAA and is signed by both CE AFPAA and EDS Account Director. The Veterans Agency publishes a Risk Management Strategy and Risk Management Framework which details all the processes by which the VA identify, evaluate and control risks.

8. Risk Process and Procedures include the structure for management and escalation of risks. The procedures outline the requirement to consider risks to the achievement of business and personal objectives. The Agencies' strategic risks are linked to Agency objectives through Balanced Scorecard performance reports. They are reviewed monthly by executive management and regularly by the Agencies' Audit Committees. Service delivery reports and monitoring by specialist working groups enable early identification of potential risks.

9. The Agencies' Audit Committees are fully established and meet regularly. Agenda items include AFPS specific issues as well as wider Agency business. The Defence Internal Audit organisation and the National Audit Office observe on the Audit Committees and provide advice and guidance where appropriate. Both Agencies have Assurance Teams to provide internal assurance through an agreed programme of work based on a balanced review of the Schemes' risks. Regular audits of pensions in payment are undertaken on a quarterly basis at the Paymaster (1836) Ltd premises (the company contracted to undertake payments to retired service personnel and their dependants).

10. Following merger of AFPAA and the VA to form a single Service Personnel and Veterans Agency (SPVA) on 1 April 2007, responsibilities for the management and day to day accounting for AFPS/AFCS payments will gradually move to the SPVA site at Norcross during financial year 2007/2008. While this will go someway to reducing the risks around the uncertain future of the Innsworth site it may, in the short term, introduce further risks around staffing and IT interfaces until such time as revised processes and procedures have time to bed in; the Agency will work very closely with DWP (who host the IT systems on the Norcross site) to mitigate the IT risks and all risks will be carefully monitored by the SPVA Management Group.

Business Continuity

11. Both Agencies have Business Continuity Plans (BCP) in place and provide robust arrangements for implementation should the need arise. The VA BCPs are reviewed every 6 months and tested periodically. AFPAA has a Business Continuity Management strategy that was reviewed in the current year and has recently recruited a BC Manager to assist with the regular reviews and annual testing of BC and DR plans. It remains the intention to move to a more rigorous and realistic testing of plans but pressures of rolling out JPA to RN and Army has meant deferring the first live disaster recovery test to July 07. Additional scenario-based walkthroughs were conducted prior to RN and Army go-live. Paymaster (1836) Ltd have their own fully tested BCP plans in place which are reviewed regularly as part of their risk management strategy. Following the merger of VA/AFPAA it is the intention to review all BCP plans to ensure a common and unified approach.

Review of effectiveness

12. As Accounting Officer for the AFPS and the AFCS, I have responsibility for reviewing the effectiveness of the system of internal control. My review of the effectiveness of the system of internal control is informed by the work of internal auditors, assurance teams and audit committees, the executive managers for the scheme, who have responsibility for the development and maintenance of the internal control framework, and comments made by the external auditors, in their management letter and other reports. A plan to address weaknesses and ensure continuous improvement of the systems is in place.

13. In the current year, the effectiveness of the systems of internal control operating within AFPAA and the VA has been subject to continuous review. Activities that have significantly contributed to maintaining and improving effectiveness include:

- The Agencies' Non-Executive Directors were fully involved in the management of the Agencies' business, providing independent advice to executive management and the Agencies' Owner's Advisory Board. One of the Non-Executive Directors is common to both Agencies.
- The Agencies' Audit Committees, chaired by a Non-Executive Director, undertook a full programme of business which included the close examination of procedures in place to manage Agency risks in relation to financial propriety and the management of the AFPS and AFCS schemes.

- A risk assurance workshop with Paymaster (1836) Ltd was held to ensure all risks were identified and control processes were in place for all pension payments. An annual assurance statement is signed by the Executive Board of Paymaster (1836) Ltd.

- Paymaster (1836) Ltd has introduced an annual check of employee bank account details against the AFPS & AFCS pensions in payment records as an additional control to mitigate the potential risk of employee fraud.

- AFPS continue to participate in the National Fraud Initiative (NFI) sponsored by the Audit Commission which is used in this context to detect potential fraudulent pension payments. The NFI 2006 commenced in October 2006 and will be completed by end March 2008. This is the third NFI exercise undertaken and it continues to detect pension payments made after the date of death.

- The AFPAA/VA Merger business process rationalisation work has been evolving since Aug 06 and the aim is to harmonise pension, war pension and compensation processes, where possible, by 1 April 07.

- The Agencies' Assurance Team completed a number of compliance and assurance activities in relation to both financial propriety and business risks, including AFPS and AFCS risks. Specifically:

  – A review of the recently introduced Compensation and Pension System (CAPS) was completed. A Post Implementation Review of the first phase delivery is planned for Jun 07.

  – A review of the accuracy of the AFCS decision making process was undertaken and post payment checks on the end to end process for all AFCS payments authorised by the VA and a sample of those cases spanning WPS and AFCS was completed.

- Quarterly audits of selected AFPS pension payments and related procedures were undertaken in respect of services provided by Paymaster (1836) Ltd for the administration of Armed Forces pensions. A more financially based audit was also completed by AFPAA accounts staff.

Significant internal control problems

14. There are no significant internal control problems in relation to the Armed Forces Pension Scheme or in relation to the Armed Forces Compensation Scheme. However there are two matters of substance that I wish to address at this point:

- In last year's SIC reference was made to an emerging issue to be taken forward under Project Collins. In the event, this resulted in the need to review over 49,000 cases to identify individuals who may have been in receipt of the wrong rate of attributable pension. To date 280 have been identified as incorrect and these have been corrected and paid arrears amounting to some £3m. 18 cases have been identified as receiving a higher rate of pension than their entitlement; these cases are currently being fully investigated. A further 284 cases have still to be reviewed and provision has been made to take account of any errors that may be due. This work is expected to be complete by August 07.

- Reference was also made last year to financial issues relating to the AFCS. The MoD remains unable to provide sufficient evidence to support the completeness and valuation of the provision it has made for the liabilities for compensation payable relating to the AFCS cases where claims have yet to be made. The Department is unable to rely on claim rates and values of other schemes to aid its estimation and nor is sufficient information available on the frequency of potentially eligible incidents or the propensity to claim within the Armed Forces. This led to a technical qualification of the AFPS accounts in 2006/07 and it is anticipated this will continue until the AFCS has been in existence for a number of years and trends established.

Bill Jeffrey

Accounting Officer for the Armed Forces Pension Scheme and Armed Forces
Compensation Scheme 9 July 2007

The Certificate of the Comptroller and Auditor General to the House of Commons

I certify that I have audited the financial statements of the Armed Forces Pension Scheme for the year ended 31 March 2007 under the Government Resources and Accounts Act 2000. These comprise the Statement of Parliamentary Supply, the Revenue Account and Statement of Recognised Gains and Losses, the Balance Sheet, the Cashflow Statement and the related notes. These financial statements have been prepared under the accounting policies set out within them.

Respective responsibilities of the Accounting Officer and auditor

The Accounting Officer is responsible for preparing the Report of the Scheme Managers and the financial statements in accordance with the Government Resources and Accounts Act 2000 and HM Treasury directions made thereunder and for ensuring the regularity of financial transactions. These responsibilities are set out in the Statement of Accounting Officer's Responsibilities.

My responsibility is to audit the financial statements in accordance with relevant legal and regulatory requirements, and with International Standards on Auditing (UK and Ireland).

I report to you my opinion as to whether the financial statements give a true and fair view and have been properly prepared in accordance with HM Treasury directions issued under the Government Resources and Accounts Act 2000. I also report whether in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

In addition, I report to you if the Department has not kept proper accounting records, if I have not received all the information and explanations I require for my audit, or if information specified by HM Treasury regarding transactions is not disclosed.

I review whether the Statement on Internal Control reflects the Department's compliance with HM Treasury's guidance, and I report if it does not. I am not required to consider whether this statement covers all risks and controls, or to form an opinion on the effectiveness of the Department's corporate governance procedures or its risk and control procedures.

I read other information contained in the annual report, which consists of the Report of the Scheme Managers, the Actuary's Report and any other information published with the account, and consider whether it is consistent with the audited financial statements. I consider the implications for my certificate if I become aware of any apparent misstatements or material inconsistencies with the financial statements. My responsibilities do not extend to any other information.

Basis of audit opinions

I conducted my audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board, except where the scope of my audit was limited as explained below. My audit includes examination, on a test basis, of evidence relevant to the amounts, disclosures and regularity of financial transactions included in the financial statements. It also includes an assessment of the significant estimates and judgements made by the Accounting Officer in the preparation of the financial statements, and of whether the accounting policies are most appropriate to the scheme's circumstances, consistently applied and adequately disclosed.

I planned and performed my audit so as to obtain all the information and explanations which I considered necessary in order to provide me with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error, and that in all material respects the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

In forming my opinion I also evaluated the overall adequacy of the presentation of information in the financial statements.

The Certificate of the Comptroller and Auditor General to the House of Commons *(continued)*

In estimating the provision for liabilities for the Armed Forces Compensation Scheme the scheme managers were unable to provide me with robust data to support the level of provision made. There were no additional audit procedures I could undertake to provide me with assurance as to the level of provision. The scope of my audit was therefore limited in this respect.

Opinions

Qualified Opinion arising from limitation in audit scope

In my opinion:

- except for the effects of such adjustments, if any, as might have been determined to be necessary had we been able to satisfy ourselves as to the valuation of the provision for the liabilities of the Armed Forces Compensation Scheme, the financial statements give a true and fair view, in accordance with the Government Resources and Accounts Act 2000 and directions made thereunder by HM Treasury, of the state of the scheme's affairs as at 31 March 2007 and the net cash requirement, net resource outturn, net outgoings, recognised gains and losses and cashflows for the year then ended;
- the financial statements have been properly prepared in accordance with HM Treasury directions issued under the Government Resources and accounts Act 2000; and
- in respect solely of the limitation on my work relating to the Armed Forces Compensation Scheme provision I have not obtained all the information and explanations that I considered necessary for the purposes of my audit.

Audit Opinion on Regularity

In my opinion, in all material respects, the expenditure and income have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

Please see also my attached report.

John Bourn
Comptroller and Auditor General
National Audit Office
157-197 Buckingham Palace Road
Victoria
London SW1W 9SP

10 July 2007

Report by the Comptroller and Auditor General

Introduction

1. The Armed Forces Pension Scheme (AFPS) is a salary-related, contracted out, occupational pension scheme open to most members of the Armed Forces and is financed annually through Parliamentary Supply from the Consolidated Fund. The scheme is administered by the Service Personnel and Veterans Agency (SPVA), an Executive Agency of the Ministry of Defence[1].

2. On 6 April 2005 the existing pension scheme, known as AFPS 75, was closed to new entrants and a new scheme, AFPS 05, opened. Both Schemes are accounted for within the AFPS Resource Account.

3. On 6 April 2005, the Ministry of Defence introduced a new compensation scheme for the Armed Forces which is also accounted for within the AFPS Resource Account. The Armed Forces Compensation Scheme (AFCS) replaced previous arrangements for attributable benefits (under the War Pensions Scheme (WPS) and AFPS 75) for injuries, illnesses or deaths caused by Service on or after 6 April 2005. Compensation is payable in accordance with a defined tariff.

4. The MoD is required, under S 7(2) of the Government Resources and Accounts Act 2000, to produce accounts for the AFPS which meet the financial reporting requirements specified in the Government Financial Reporting Manual. Where necessary, under Financial Reporting Standard 12, provisions and contingent liabilities must be included within the financial statements.

5. For the AFCS, the MoD has a present, legal obligation to pay compensation to those with attributable injuries from the point the injury is incurred. An appropriately valued provision is therefore required to be included in the financial statements of the AFPS.

6. Under Section 7(3) of the Government Resources and Accounts Act 2000, I am required to provide an audit opinion as to whether the financial statements of the AFPS provide a true and fair view of the state of affairs of the entity including any provisions made. My opinion on these financial statements is qualified because:

- the scope of my audit was limited as the Ministry of Defence was unable to provide me with sufficient evidence to support the completeness and valuation of the relevant provision of £94,453,000 (2005-06, £24,229,000) for compensation payable relating to cases where claims have yet to be made, and
- there were no other audit procedures I could adopt to confirm that the AFCS provision was not materially misstated.

7. My opinion was similarly qualified in 2005-06.

MOD's assessment of the AFCS provision for unclaimed compensation

8. The MoD have examined ways to support the current liability for the AFCS scheme in order to estimate the provision required under FRS 12. The number and value of claims made in the first two years of the Scheme's operation is shown in the table below:

	2005-06	**2006-07**
Number of Successful Claims	124	677
Value in Year	£1,274,000	£6,159,000
Future Value of Known Claims	£7,166,000	£24,511,000

Table 1: Number and value of claims made in the first two years of operation of the AFCS.

1 SPVA was formed by the merger on 1 April 2007 of the Armed Forces Personnel Administration Agency (AFPAA) and the Verterans Agency. Prior to the merger the Scheme was administered by AFPAA alone.

9. SPVA have reviewed all the information they consider to be available to them. This includes all readily available statistics on accidents in the military environment to help value the liability for incidents that have taken place but for which claims have not been made. However the nature of the scheme the Department operates means they do not have sufficient internal information on and cannot rely on claim rates and values of other schemes to aid their estimation on both;

- the incidence and frequency of potentially eligible incidents in the armed forces, and
- the propensity to claim of armed forces personnel.

A further complication is that potential claimants have five years during which to make a claim.

10. While the provision included in the accounts therefore represents the Department's best estimate they are unable as yet to obtain sufficient evidence to support the completeness and valuation of the claims provision. This inability reflects the consequence of the introduction of the new AFCS scheme and I have identified no underlying weakness in the scheme administration related to this matter.

Effect on net resource outturn

11. As part of the annual Appropriation Act, Parliament approved a limit to the total net resource outturn for 2006-07 of the scheme of £4,588,662,000 (2005-06, £4,458,545,000). For 2006-07 net resource outturn of £4,398,961,000 (2005-06, £4,341,400,000) is included in the accounts, leading to a surplus of £189,701,000 (2005-06, £117,145,000). Should the liability that could have been estimated be larger than that which has already been provided for in the accounts by an amount in excess of the surplus, this would mean that the scheme would have breached the parliamentary control total. My audit is not qualified in this respect.

Estimation of liabilities in the future

12. The Armed Forces Compensation Scheme has been in existence since 2005. Over the next few years, MoD will be able to assess the history of injury type and frequency more accurately and also gain evidence of the propensity of Armed Forces personnel to claim under this Scheme. Once sufficient and relevant information becomes available to enable me to audit the underlying assumptions, I will be able to remove the limitation in scope of my audit opinion.

13. This qualification is in respect of the Armed Forces Compensation Scheme liability only. I am satisfied that the reported liabilities for the AFPS 05 and AFPS 75 Pension Schemes are valued at a level that is true and fair.

Summary of Income Payable to the Consolidated Fund

In addition to appropriations-in-aid, the following income relates to the scheme and is payable to the Consolidated Fund (cash receipts being shown in italics)

		Forecast 2006-07		Outturn 2006-07	
		Income	Receipts	Income	Receipts
	Note	£000	£000	£000	£000
Total	5	-	-	-	*24,458*

Explanation of the variation between Estimate and Outturn:
The Outturn is less than the Estimate due to a lower than anticipated interest on scheme liabilities and current service cost.

Explanation of the variation between estimate net cash requirement and outturn net cash requirement:
The Outturn is less than the Estimate due to a lower level of benefits payable than anticipated.

The notes on pages 21 to 35 form part of these accounts.

(Decrease) in cash in the period	22(c)	**(35,028)**	**(4,233)**

The notes on pages 21 to 35 form part of these accounts.

Notes to the Accounts

1. Basis of Preparation of the Scheme Statements

1.1 The Scheme Statements have been prepared in accordance with the relevant provisions of the 2006-07 *Government Financial Reporting Manual (FReM)* issued by the Treasury, which reflect the requirements of Financial Reporting Standard (FRS) 17 *Retirement Benefits*. These accounts show the unfunded pension liability and movements in that liability during the year. The accounts also have regard to the recommendations of the Statement of Recommended Practice entitled *Financial Reports of Pension Schemes* to the extent that these are appropriate.

1.2 In addition to the primary statements prepared under UK GAAP, the FReM also requires the scheme to prepare an additional statement – a *Statement of Parliamentary Supply*. This, and its supporting notes, show outturn against estimate in terms of the net resource requirement and the net cash requirement.

1.3 The Scheme Statements summarise the transactions of the Armed Forces Pension Scheme incorporating the Armed Forces Compensation Scheme (AFCS). The Balance Sheet shows the deficit on the schemes; the Revenue Account shows, inter alia, the movements in the liabilities analysed between the pension cost, enhancements and transfers in, and the interest on the schemes' liabilities. The actuarial position of the pension scheme is dealt with in the Report of the Actuary, and the Scheme Statements should be read in conjunction with that report.

1.4 The AFPS is a contracted-out, unfunded, defined benefit pay-as-you-go occupational pension scheme operated by the MoD on behalf of members of the Armed Services who satisfy certain membership criteria. The employer's charge to the pension scheme is met by payment of a Superannuation Contribution Adjusted for Past Experience (SCAPE), calculated as a percentage of military pay based on rank. The SCAPE contribution made by the MoD partially funds the payments made by the AFPS in year.

1.5 Funding from the Consolidated Fund is required to meet the difference between the payments to pensioners and the amounts receivable from MoD. In addition, funding is required to finance movements in working capital including increases or decreases in bank balances.

1.6 Administration expenses (staff, office facilities, etc.) are borne through the Operating Cost Statement of the MoD.

1.7 The Scheme Statements summarise the transactions of not only the AFPS but also the Reserve Forces Pension Scheme (RFPS), Gurkha Pension Scheme (GPS), Non-Regular Permanent Staff Pension Scheme (NRPS) and the AFCS. These are administered and managed in a similar way to the AFPS.

1.8 Members have no choice over the allocation of benefits between the lump sum and the annual pension. However, there are two forms of commutation for existing pensioners – resettlement commutation and life commutation, where the pensioner has the option to abate their pension in return for a lump sum. Benefit payments are accounted for on an accruals basis.

1.9 The Actuarial Statement, shown on pages 6 and 7, which takes account of future obligations, has been prepared by the Government Actuary's Department and should be read in conjunction with the Scheme Statements. The Actuarial Statement has been prepared using the projected accrued benefit method, the actuarial valuation itself being undertaken on a quadrennial basis.

1.10 The accounting policies adopted by the scheme are described below. They have been applied consistently in dealing with items that are considered material in relation to the Scheme Statements.

2. Statement of accounting policies

The accounting policies contained in the FReM follow UK generally accepted accounting practice for companies (UK GAAP) to the extent that it is meaningful and appropriate to the public sector.

Where the FReM permits a choice of accounting policy, the accounting policy which has been judged to be most appropriate to the particular circumstances of the Scheme for the purpose of giving a true and fair view has been selected. The accounting policies adopted have been applied consistently in dealing with items considered material in relation to the accounts.

2.1 Pension contributions receivable

2.1.1 Employer's normal pension contributions (SCAPE) are accounted for on an accruals basis.

2.1.2 Employees' pension contributions and amounts received in respect of the purchase of added years of service are accounted for on an accruals basis. Contributions deducted from employees' salaries are in respect of 'in-scheme' Additional Voluntary Contributions (AVCs). Neither Free-Standing Additional Voluntary Contributions (FSAVCs) nor payments to providers of stakeholder pensions are brought into account in this statement. The associated increase in the scheme liability is recognised as expenditure.

2.2 Transfers in and out

Transfers in and out of the scheme in respect of individual members are accounted for as income and expenditure (representing the associated increase in the scheme liability) on a cash basis.

2.3 Other income

Other income is accounted for on an accruals basis. To the extent that this income represents an increase in the scheme liability, it is also reflected in expenditure.

2.4 Current service cost

The current service cost is the increase in the present value of the scheme liabilities arising from current members' service in the current period and is recognised in the Revenue Account. The cost is based on a discount rate of 2.8 % real (i.e. 5.37% including inflation).

2.5 Past service costs

Past service costs are increases in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits. Past service costs are recognised in the Revenue Account on a straight line basis over the period in which increases in benefit vest.

2.6 Interest on scheme liabilities

The interest cost is the increase during the period in the present value of the scheme liabilities because the benefits are one period closer to settlement and is recognised in the Revenue Account. The interest cost is based on the discount rate of 2.8 % real (i.e. 5.37% including inflation).

2.7 Other payments

Other payments are accounted for on an accruals basis.

2.8 Scheme liability

2.8.1 Provision is made for liabilities to pay pensions and other benefits in the future. The scheme liability is measured on an actuarial basis using the projected unit method and is discounted at the prevailing rate. The discount rate changed on 31 March 2007, from 2.8% to 1.8%, and the scheme liability was discounted at this rate. In-year, a rate of 2.8% was used to derive the Current Service Cost (see Note 2.4). Further details of the financial assumptions used are set out at Note 17 to these accounts and in the Actuarial Statement on pages 7 and 8.

2.8.2 Full actuarial valuations by a professionally qualified actuary are obtained at intervals not exceeding four years. The actuary reviews the most recent actuarial valuation at the Balance Sheet date and updates it to reflect current conditions.

2.9 Pensions benefits payable

Pension benefits payable are accounted for as a decrease in the scheme liability on an accruals basis.

2.10 Pension payments to those retiring at their normal retirement age

Where a retiring member has no choice over the allocation of benefits receivable between the value of the lump sum and the annual pension, the transaction is accounted for as a decrease in the scheme liability on an accruals basis.

2.11 Pension payments to and on account of leavers before their normal retirement age

The AFPS is a non-contributory pension scheme; therefore no refund will be made to members on leaving the scheme. Members may request that the value of their service be transferred to a salary related occupational pension scheme, or to a statutory scheme. Transfers out of the scheme are accounted for on a cash basis.

2.12 Lump sums payable on death in service

Lump sum payments on death in service are accounted for on an accruals basis. They are funded through normal pension contributions and are a charge on the pension provision.

2.13 Actuarial gains and losses

Actuarial gains and losses arising from any new valuation and from updating the latest actuarial valuation to reflect conditions at the Balance Sheet date are recognised in the Statement of Recognised Gains and Losses for the year.

2.14 Attributable Injury Benefits

Provision is made to account for the repayment of incorrectly paid benefits as a result of a decision by the Court of Appeal on 19 November 2003 on assessment of attributable pensions. The provision is expected to be cleared by August 2007.

2.15 Armed Forces Compensation Scheme

The Armed Forces Compensation Scheme came into effect on 6th April 2005, and provision is made within these accounts to provide for payments due to scheme members in compensation for deaths and injuries, occurring on or after that date and which are considered to be attributable to service in the Armed Forces.

3 Reconciliation of net resource outturn to net outgoings

The adjustment of £8.2 billion in 2005-06 reflects the difference between the estimate and accounting treatment of the change in the discount rate from 3.5% to 2.8% with effect from 1 April 2005. Parliamentary approval was given for the necessary resources, and was reflected as a non-budget item in the Estimates and in the Statement of Parliamentary Supply.

				2006–07	2005–06
		Outturn	**Supply Estimate**	**Outturn compared with Estimate**	**Outturn**
	Note	£000	£000	£000	£000
Net Resource outturn		4,398,961	4,588,662	189,701	12,541,400
Non-supply income (CFERs)	6	–	–	–	(44,825)
Non-budget adjustment		–	–	–	(8,200,000)
Net Outgoings		**4,398,961**	**4,588,662**	**189,701**	**4,296,575**

4. Reconciliation of resources to cash requirement

	Notes	**Estimate**	**Outturn**	**Net Total outturn compared with Estimate: savings/ (excess)**
		£000	£000	£000
Net Resource Outturn	3	4,588,662	4,398,961	189,701
Accruals adjustments:				
Non cash items	23	(6,018,122)	(5,821,179)	(196,943)
Changes in working capital other than cash		(22,538)	(38,460)	15,922
Use of provision:				
Pension		3,046,227	3,028,046	18,181
Attributable injury benefits		2,643	3,248	(605)
Project Collins		3,871	3,136	735
Compensation Scheme		3,626	6,159	(2,533)
Net cash requirement		**1,604,369**	**1,579,911**	**24,458**

5. Analysis of income payable to the Consolidated Fund

In addition to appropriations-in-aid, the following income relates to the scheme and is payable to the Consolidated Fund (cash receipts being shown in italics)

	Forecast 2006–07		Outturn 2006–07	
	Income	**Receipts**	**Income**	**Receipts**
	£000	£000	£000	£000
Operating income and receipts – excess A–in–A	–	–	–	–
Excess cash surrenderable to the Consolidated Fund	–	–	–	*24,458*
Total income payable to the Consolidated Fund	**-**	**-**	**-**	**24,458**

6. Reconciliation of income recorded within the Revenue Account to operating income payable to the Consolidated Fund

No operating income is payable to the Consolidated Fund as the level of income received is below the authorised appropriations in aid income.

	2006–07	**2005–06**
	£000	£000
Operating income	(1,422,218)	(1,410,063)
Income authorised to be appropriated-in-aid	1,432,094	1,365,238
Operating income payable to the Consolidated Fund	**–**	**(44,825)**

Revenue account

7. Pensions contributions receivable

Employers' contributions are receivable from MoD in respect of active members of the AFPS and amount to an average of 34.15% (2005-06: 30.9%) of pay.

	2006–07	**2005–06**
	£000	£000
Employers	1,419,529	1,404,451
Employees:		
Additional Voluntary Contributions	594	657
	1,420,123	**1,405,108**

8. Pensions transfers in *(see also Note 12)*

The nature of the recruitment into the Armed Forces eliminates the opportunity for group transfers into the scheme.

	2006–07	**2005–06**
	£000	£000
Individual transfers in from other schemes	1,946	4,717
	1,946	**4,717**

9. Other pension income

Miscellaneous income consists of contributions to enhance 1/3 rate Forces Family Pensions to 1/2 rate, and refunds of resettlement commutation on re-entry into the pension scheme.

	2006–07	**2005–06**
	£000	£000
Miscellaneous income (including refund of gratuities)	149	238
	149	**238**

10. Pension cost

The current service cost is the increase in the present value of the scheme liabilities arising from current members' service in the current period.

	2006–07	**2005–06**
	£000	£000
Current service cost *(see Note 17.5)*	1,659,199	1,670,617
	1,659,199	**1,670,617**

11. Enhancements *(see also Note 17.5)*

	2006–07	**2005–06**
	£000	£000
Employees AVCs and added years	594	657
	594	657

12. Transfers in *(see also Note 8)*

Amounts receivable in respect of inward transfers increase the pension liability to the same extent. This increase is reflected in the Revenue Account as expenditure as part of the movements in the provision during the year.

	2006–07	**2005–06**
	£000	£000
Individual transfers in from other schemes	1,946	4,717
	1,946	**4,717**

13. Interest on scheme liabilities *(see also Note 17.5)*

The interest charge in the year has been determined by taking 5.37% of the opening balance plus 5.37% of the average of the movements in the year, which are deemed to accrue evenly during the year. The movements in the year exclude the interest charge and the actuarial gains/losses.

	2006–07	**2005–06**
	£000	£000
Interest charge for the year	4,065,995	3,979,361
	4,065,995	**3,979,361**

Balance Sheet

14. Debtors – contributions due in respect of pensions

14(a) Analysis by type

Overpayments to pensioners are inherent in the nature of the scheme. Payments to pensioners continue until notification of death is received or until non-return of a life certificate.

	2006–07	2005–06
	£000	£000
Amounts falling due within one year:		
Overpaid pensions	2,630	4,040

	176,455	**184,002**

17. Provision for pension liability

17.1 The Armed Forces Pension Scheme is an unfunded defined benefit scheme. A full actuarial valuation was carried out as at 31 March 2005 by the Government Actuary's Department. The major financial assumptions used by the actuary when providing the assessment of the accrued liabilities as at the following dates for the Resource Accounting assessments were:

	At 31 March 2007	At 31 March 2006	At 31 March 2005
Rate of increase on salaries	4.3%	4.0%	3.9%
Rate of increase in pensions in payment and deferred pensions	2.75%	2.5%	2.4%
Inflation assumption	2.75%	2.5%	2.4%
Discount rate	1.8%	2.8%	3.5%

17.2 The scheme managers are responsible for providing the Actuary with information he needs to carry out the valuation. This information includes, but is not limited to details of:

- scheme membership, including age and gender profile, active membership, deferred pensioners and pensioners;
- benefit structure, including details of any discretionary benefits and any proposals to amend the scheme;
- income and expenditure; and,
- following consultation with the Actuary, the key assumptions that should be used to value the scheme liabilities, ensuring that the assumptions are mutually compatible and reflect a best estimate of future experience.

17.3 Pension scheme liabilities accrue over employees' periods of service and are discharged over the period of retirement and, where applicable, the period for which a spouse or eligible partner survives the pensioner. In valuing the scheme liability, the Actuary must estimate the impact of several inherently uncertain variables far into the future. These variables include not only the key financial assumptions noted in the table above, but also assumptions about the changes that will occur in the future in the mortality rate, the age of retirement and the age from which a pension becomes payable.

17.4 The value of the liability included on the Balance Sheet may be significantly affected by even small changes in assumptions. For example, if at a subsequent valuation, it is considered appropriate to increase or decrease the assumed rate of inflation, or increases in salaries, then the value of the pension liability will increase or decrease. The managers of the scheme accept that, as a consequence the valuation provided by the Actuary is inherently uncertain. The increase or decrease in future liability charged or credited for the year resulting from changes in assumptions is disclosed in notes 17.8 and 17.9. The notes also disclose 'experience' gains or losses showing the amounts charged or credited for the year because events have not coincided with assumptions made for the last valuation.

17.5 Analysis of movements in scheme liability

	2006–07	**2005–06**
	£000	£000
Scheme liability at 1 April	**(76,400,000)**	**(66,500,000)**
Current service cost (Note 10)	(1,659,199)	(1,670,617)
Interest on pension scheme liability (Note 13)	(4,065,995)	(3,979,361)
	(5,725,194)	(5,649,978)
Non-budget adjustment	–	(8,200,000)
	(5,725,194)	(13,849,978)
Income received in respect of enhancements (Note 11)	(594)	(657)
Pension transfers (Note 12)	(1,946)	(4,717)
	(5,727,734)	(13,855,352)
Benefits paid (Note 17.6)	3,009,332	2,845,602
Pension payments to and on account of leavers (Note 17.7)	18,714	23,260
	3,028,046	2,868,862
Actuarial (loss)/gain (Note 17.8)	(21,449,312)	1,086,490
Scheme liability as 31 March	**(100,549,000)**	**(76,400,000)**

17.6 Analysis of benefits paid

	2006–07	2005–06
	£000	£000
Pensions to retired employees and dependents (net of recoveries of overpayments)	2,554,933	2,429,830
Commutations and lump sum benefits on retirement	454,399	415,772
Per cash flow statement	**3,009,332**	**2,845,602**

17.7 Analysis of payments to and on account of leavers

	2006–07	2005–06
	£000	£000
Individual transfers to other schemes	18,714	23,260
Per cash flow statement	18,714	23,260

17.8 Analysis of actuarial gain/(loss)

	2006–07	2005–06
	£000	£000
Experience (losses)/gains arising on scheme liabilities	(4,214,312)	1,086,490
(Losses)/gains arising due to changes in actuarial assumptions	(17,235,000)	–
Per Statement of Recognised Gains and Losses	**(21,449,312)**	**1,086,490**

17.9 History of actuarial gains and losses

	2006-07	2005-06	2004-05	2003-04
Experience (gains) and losses on scheme liabilities:				
Amount (£000)	4,214,312	(1,086,490)	762,358	59,624
Percentage of the present value of the scheme liabilities	4.19%	(1.4%)	1.1%	0.1%
(Losses)/gains arising due to changes in actuarial assumptions Amount (£000)	17,235,000	–	–	–
Percentage of the present value of the scheme liabilities	17.14%	–	–	–
Total actuarial loss/(gain) Amount (£000)	21,449,312	(1,086,490)	762,358	5,100,000
Percentage of the present value of the scheme liabilities	21.33%	(1.4%)	1.1%	8.0%

18. Provision for liabilities and charges – Armed Forces Compensation Scheme

Armed Forces Compensation Scheme

The Armed Forces Compensation Scheme was introduced from 6 April 2005 to provide compensation where service is the only or main cause of an injury, illness or death. As compensation for pain and suffering, the AFCS makes a lump sum payment for qualifying injuries and illnesses caused mainly by service. The value is determined by a tariff which has 15 levels. For more serious illnesses and injuries (within tariff levels 1-11) where a loss of earnings capacity may be expected, an ongoing Guaranteed Income Payment (GIP) is awarded.

The scheme is required to provide for the injuries to military personnel that have occurred whilst in service. The provision reflects claims that have been made based on injuries that have occurred, including those incidents occurred but not yet reported. Military personnel have up to 5 years to make a claim under the AFCS.

	AFCS incidents incurred but not yet reported	AFCS known Claims	AFCS total provision
	£000	£000	£000
Balance at 1 April 2006	**24,229**	**7,166**	**31,395**
Use of provision in year	–	(6,159)	(6,159)
Interest on Scheme Liabilities	1,071	317	1,388
Revaluation at year end	69,153	23,187	92,340
Balance at 31 March 2007	**94,453**	**24,511**	**118,964**

19. Provision for liabilities and charges – Attributable Injury Benefits

Attributable Injury

As a result of the decision by the Court of Appeal on 19 November 2003, a review commenced on all decisions on entitlement to attributable pensions for those conditions that led to invaliding or death-in-service where AFPS administrators have previously not accepted War Pension Scheme decisions on attributability.

The majority of the cases have been reviewed with over £37m payments made to date. The provision has been revalued and an anticipated £1.9m payments are due in 2007-08.

	2006–07	2005–06
	£000	£000
Balance at 1 April	**(2,643)**	**(20,955)**
Movement of provision in year:		
Use of provision in year	3,248	28,137
Revaluation at year end	(2,668)	(9,825)
Balance at 31 March	**(2,063)**	**(2,643)**

20. Provision for liabilities and charges – Project Collins

As a result of work undertaken on Project Haven, where certain pension entitlements were erroneously taxed, it was discovered that many individuals were in receipt of the wrong rate of attributable pension due to the application of incorrect rates. This issue is now being reviewed under Project Collins. To date 280 have been identified as incorrect and these have been corrected and paid arrears amounting to some £3m. A further 284 cases have still to be reviewed and provision has been made to take account of any errors that may be due. This work is expected to be complete by August 07.

	2006–07	2005–06
	£000	£000
Balance at 1 April	**(8,792)**	**–**
Movement of provision in year:		
Set-up of provision	–	(8,792)
Use of provision in year	3,136	–
Revaluation at year end	2,951	–
Balance at 31 March	**(2,705)**	**(8,792)**

21. General Fund

The General Fund represents the total assets less liabilities of the pension scheme, to the extent that the total is not represented by other reserves and financing items.

	2006–07	2005–06
	£000	£000
Balance at 1 April	(76,553,476)	(66,792,624)
Non-budget adjustment	–	(8,200,000)
Adjusted Opening Balance	(76,553,476)	(74,992,624)
Net Parliamentary Funding:		
Draw down	1,589,708	1,645,000
Deemed	14,661	63,719
Year end adjustment:		
Supply creditor – current year	(24,458)	(14,661)
Net Transfer from operating activities:		
Net outgoings	(4,398,961)	(4,296,575)
CFERs repayable to Consolidated Fund	–	(44,825)
Actuarial (losses) and gains (SRGL)	(21,449,312)	1,086,490
Balance at 31 March	**(100,821,838)**	**(76,553,476)**

22. Notes to the Cash Flow Statement

22(a) Reconciliation of net outgoings to operating cash flows

	Notes	2006–07 £000	2005–06 £000
Net outgoings for the year		(4,398,961)	(4,296,575)
Decrease/(Increase) in Debtors		10,979	(12,392)
Increase/(Decrease) in Creditors		27,481	(148,631)
Increase in pension provision	17.5	5,725,194	5,649,978
Increase in pension provision – enhancements	17.5	594	657
Increase in pension provision – transfers in		1,946	4,717
Use of provisions – pension liability	17.6	(3,009,332)	(2,845,602)
Use of provisions – refunds and transfers	17.7	(18,714)	(23,260)
Increase in provision for attributable injury benefits	19	2,668	9,825
Use of provisions – attributable injury benefits	19	(3,248)	(28,137)
Increase in compensation provision	18	93,728	32,669
Use of provision – compensation scheme	18	(6,159)	(1,274)
(Decrease)/Increase in provision for Project Collins	20	(2,951)	8,792
Use of provision – Project Collins	20	(3,136)	–
Net cash outflow from operating activities		**(1,579,911)**	**(1,649,233)**

22(b) Analysis of financing and reconciliation to the net cash requirement

	2006–07 £000	2005–06 £000
From the Consolidated Fund (Supply) – current year	1,589,708	1,645,000
Net financing	1,589,708	1,645,000
Decrease in cash	35,028	4,233
Adjustments for payments and receipts not related to Supply		
Payment from/(to) the Consolidated Fund	(44,825)	–
Amounts due to the Consolidated Fund, received and not paid over – Excess appropriation-in-aid relating to current year	–	44,825
Net cash requirement per Statement of Parliamentary Supply	**1,579,911**	**1,694,058**

22(c) Reconciliation of Net Cash Requirement to (decrease) in cash

	Note	2006–07 £000	2005–06 £000
Net cash requirement		(1,579,911)	(1,694,058)
From Consolidated Fund (Supply) – current year		1,589,708	1,645,000
Amounts (paid to)/due to the Consolidated Fund	3	(44,825)	44,825
(Decrease) in cash		**(35,028)**	**(4,233)**

23 Non Cash Items

	2006–07	2005–06
	£000	£000
Non-budget adjustment	–	8,200,000
Current service cost	1,659,199	1,670,617
Enhancements	594	657
Transfers in	1,946	4,717
Interest on Pension Scheme liability	4,065,995	3,979,361
Interest on Compensation Scheme liability	1,388	702
Revaluation of Attributable Injury Provision	2,668	9,825
Revaluation of Compensation Scheme Provision	92,340	31,967
Revaluation of Project Collins Provision	(2,951)	8,792
Non-cash items (See Note 4)	**5,821,179**	**13,906,638**

24. Financial Instruments

FRS 13, *Derivatives and Other Financial Instruments*, requires disclosure of the role which financial instruments have had during the period in creating or changing the risks an entity faces in undertaking its activities. Because of the non-trading nature of its activities and the way in which government departments are financed, the AFPS is not exposed to the degree of financial risk faced by business entities. Moreover, financial instruments play a much more limited role in creating or changing risk than would be typical of the listed companies to which FRS 13 applies. In line with FRS13, short term debtors and creditors (those that mature or become payable within twelve months from the balance sheet date) have been excluded from these disclosures.

Liquidity Risk

Resources voted by Parliament finance the combined AFPS/AFCS net revenue resource requirements. The schemes are not therefore exposed to significant liquidity risks.

Interest Rate Risk

All of the schemes' financial assets and liabilities carry nil or fixed rates of interest. The schemes are not therefore exposed to any interest rate risk.

25. Contingent liabilities disclosed under FRS12

There are two Industrial Tribunal cases currently in progress. One case has a potential impact of between £10-40m and the second has not been assessed for financial impact due to the scope of the case.

26. Losses

During the year, losses arose in 55 cases (2005-06; 2,206 cases). The total loss was £59,145.57 (2005-06; £463,583.71) and this relates to the write-off of pension overpayments.

27. Related-party transactions

The schemes fall within the ambit of the MoD, which is regarded as a related party. During the year, the schemes have had material transactions with the Department whose employees are members of the schemes. None of the managers of the schemes, key managerial staff or other related parties have undertaken any material transactions with the schemes during the year.

28. Events After the Balance Sheet Date

The financial statements were authorised for issue (defined as the date of dispatch to HM Treasury) by the Accounting Officer on 10 July 2007.
